

Actuarial Manager

Location: Sydney (preferred)

Type: Permanent, Full Time Position

Company Overview

Dataly Actuarial is a dynamic and rapidly expanding consulting firm, specialising in providing dedicated support to life insurers and reinsurers in Australia, New Zealand, and Asia. Focused on actuarial, data, finance, and business domains, we offer a comprehensive suite of services, spanning data analytics, business transformation, integration programs, and traditional actuarial functions. Our accomplished team, consisting of over thirty-five qualified actuaries, actuarial consultants, and data specialists across Australia and New Zealand, is poised for further expansion. Since our successful establishment in Australia in 2019, Dataly Actuarial has forged enduring client relationships, marked by the delivery of high-calibre work. This success has propelled us into a phase of significant team growth to meet the escalating demand for our services. As we continue to evolve, we are actively seeking talented individuals to join our team and contribute to the next chapter of our success story.

About the Role

As a Manager at Dataly Actuarial, you will be a key player in delivering exceptional actuarial services to clients in the Australian financial services and life insurance industry. Qualified as a FIAA actuary (or equivalent) with a minimum of five years' work experience, including three years of post-qualification experience in Australian life insurance, you will bring substantial competency and experience in actuarial and finance works such as valuation, Prophet, IFRS17, product development, and/or Experience Analysis. The role demands your subject matter expertise, leadership, and developmental contributions for client services and internal business development.

Your responsibilities will include assisting and advising clients in areas like valuation, capital, financial reporting, and IFRS17. Leading, coordinating, and supporting junior team members in managing and/or supervisory capacities, you will actively contribute to the team's professional development. The role involves translating technical analysis for business consumption and collaborating on projects outside your core specialty. A strong emphasis on technical skills, business acumen, and effective communication with clients and internal management is paramount.

About You

A prerequisite for all applicants is the rights to live and work in Australia.

- **Qualifications:** FIAA actuary (or equivalent) with a minimum of five years' experience, including three post-qualification years in Australian life insurance.
- **Expertise:** Significant competency and experience in actuarial and finance works, covering valuation, pricing, and reporting.
- **Regulatory Knowledge:** Excellent understanding of the life insurance regulatory framework in Australia.
- **Management Experience:** Proven experience in managing a team, demonstrating leadership qualities.
- **Communication Skills:** Excellent verbal and written communication skills, particularly in dealing with senior management, colleagues, and clients.
- **Professional Integrity:** Acts professionally, ethically, and with integrity, setting an example for the team.
- **Analytical Skills:** Strong attention to detail, analytical mindset, and problem-solving skills.
- **Collaborative Attitude:** Flexible, proactive, and collaborative approach to work.
- **Mentoring:** Willing to actively contribute to the team's professional development, supporting a culture and environment that fosters both personal and professional growth for individual team members.

Culture

We cultivate a work environment experience that is supportive, inclusive, and respectful; fostering the development of skills and tools both for your professional and personal growth.

With an excellent team to support you, and guided by our values, we in turn aim to deliver positive outcomes for our clients.

Benefits

- Market competitive remuneration package
- Flexible working arrangements
- Parental leave
- Career development opportunities
- Work in a friendly, caring, and dynamic team environment.
- Diversity of experience working on different projects for different clients and different markets (Australia, New Zealand and Asia)
- Opportunity to both expand your life insurance expertise and develop your skills to gain experience in other non-insurance industries.

A career with us – How to Apply
